week5 Session 1 Lab

Question 1: Write a Node.js program that displays two separate messages in the console:
- "Hello, this is my first Node.js program!"
- "I am excited to learn more about Node.js!"

Then, modify the program to concatenate these two messages into a single line and display:
"Hello, this is my first Node.js program! I am excited to learn more about Node.js!"

Question 2 : Write a program in Node.js to take any three sentences and print number of characters in each sentence separately
